Plan today so your family doesn't have to in the future

All of us will likely have to face the death of a close family member at some time in our lives. Worry about how to cover the funeral costs just adds to the pain and grief we're experiencing.

According to the National Funeral Directors Association, the median cost of a funeral, including vault, in 2014 was \$8,508³. And, this cost does not include the cemetery plot, monument, flowers, obituary or other cash expenses³, which could push the cost well over \$10,000.

PlanRight insurance can help reduce the burden of these costs on your family, when they already have many other concerns.

Applying is simple

Applying for PlanRight is simple and convenient. Complete an easy-to-understand application and you could be eligible for life insurance coverage.⁴

Remember, in most cases, the younger and healthier you are, the lower your insurance premiums. Helping to provide for both today's peace of mind and tomorrow's possibilities, Foresters PlanRight gives you many good reasons to apply.

Ask your insurance representative how Foresters PlanRight can work for you.

Flexible insurance coverage. Foresters PlanRight offers three types of coverage – one that can immediately provide a full death benefit and two that provide a limited death benefit in the first two years. Your answers to questions on the application help guide which plan is available to you.

PlanRight with a Level Death Benefit

The death benefit is based on⁵ 100% of the face amount. The maximum face amount is \$35,000, depending on your age at the time of application.

PlanRight with a Graded Death Benefit

The death benefit is a limited benefit in the first two years⁶, which is based on⁵ the greater of a) the sum of the total premiums paid accumulated with 4.5% interest⁷, or b) 30% of the face amount in effect in the first year, and 70% of the face amount in effect during the second year. The death benefit is based on⁵ 100% of the face amount in year three and later. The maximum face amount is \$20,000, depending on your age at the time of application.

PlanRight with a Modified Death Benefit

The death benefit in the first two years⁶ is based on⁵ premiums you've paid plus 10% annual interest.⁷ The death benefit is based on⁵ 100% of the face amount beginning in the third year. The maximum face amount is \$15,000, depending on your age at the time of application.

Guaranteed premiums

Unlike some other expenses in life, PlanRight premiums are level and guaranteed to stay the same as long as you keep the coverage.

Guaranteed benefits

Your death benefit amount payable is also guaranteed as long as premiums are paid and you can be confident that your PlanRight coverage will never be canceled because of changes in your health while your coverage is in affect.

Enhanced PlanRight coverage

You can add, at an extra cost an optional **Accidental Death Rider** to PlanRight with a Level Death Benefit, which can pay an additional benefit in case of accidental death. All PlanRight certificates automatically include a **Common Carrier Accidental Death Rider**[†] that can provide an additional death benefit if you die of accidental injuries that occur while riding as a fare-paying passenger on a common carrier, such as a bus or a train.

[†] For the Graded and Modified plans, the benefit is based on⁵ 100% of the face amount if accidental death happens in the first two years. There is no additional premium.
¹ Each outstanding loan amount will reduce the death benefit and cash surrender values.

Prospective purchasers should consult their tax or legal advisor.

⁴ Insurability depends on answers to questions in the application and on the outcome of the underwriting review based on underwriting requirements and guidelines.
⁵ Unearned premium will be added and debt subtracted from the applicable amount in calculating the death benefit. Debt includes each outstanding certificate loan amount and unpaid premium owed during the grace period before lapse.
⁶ The death benefit is 100% of the face amount plus unearned premiums minus the debt in the event of accidental death during the first two years.
⁷ Interest is compounded annually and accrued on a daily basis to the date of death.
